7	The Continue button is only enabled once payment methods are selected for all APIs and the Te box is checked	erms & Conditions check-	

## Billing - transactional purchase AT&T Developer Program API Portal Project | July 1, 2011

Developer	Program		
ltem	Price	Payment Method	Charge Limit
SMS API	1 Rate card	<ul> <li>Visa ****8912</li> <li>Add New</li> </ul>	4 📝 Yes \$500
LBS API	Rate card	Checking *****2392	Yes
Device API	Rate card	PayPal ****4598  Add New	Yes
Speech API	Rate card	MasterCard ****23934  Add New	Yes
		5	I agree to the <u>Terms and Conditi</u>
		6	Back 7 Conti

- saved, the "Finish" button will link back to this page with the new payment method in the dropdowns so the purchase may continue.
- 4 Selecting "Yes" will enable the text input field. Selecting "No" will clear and disable the text input field. The text input field is for customers to enter a limit of how much they want to pay for the corresponding API's transaction fees.
- 5 Checking this is required in order to finish setting up the transaction
- 6 The Back button goes back 1 step in the purchase process
- The Continue button is only enabled once payment methods are selected for all APIs and the Terms & Conditions checkbox is checked

- 1 A short "Thank You" message is typically seen at the end of online transactions with a summary of the purchase
- 2 Prints the page in a readable format for record keeping purposes
- ③ If this page opened as a separate window, this button closes the window
- 4 This space is reserved for a small advertisement that AT&T may want to utilize
